1 Welcome to WRRCS

The WRRCS app is where you see your jobs, clock your time, read each property's instructions (SOP), add your photos, keep track of your supplies and ask for time off. Keep it on your phone and open it at the start of every workday.

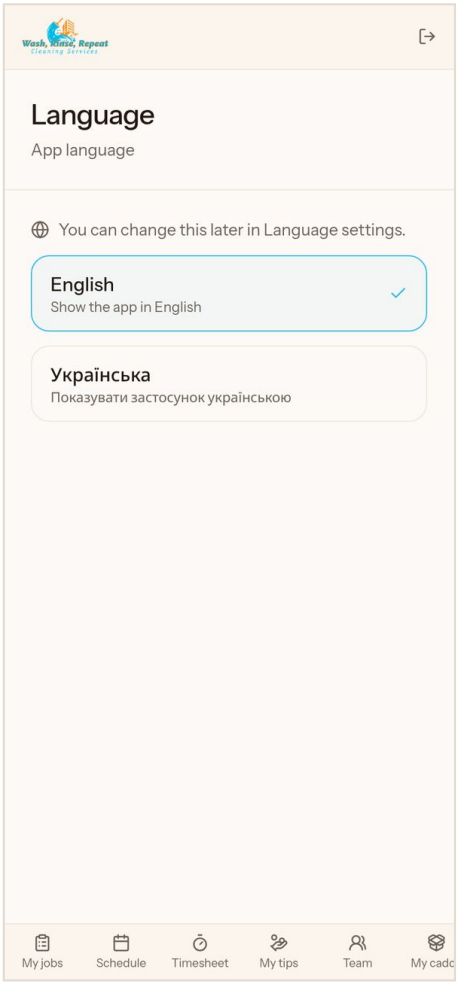

1. Everything you need for the day is on the My jobs screen.
2. The menu at the bottom of the screen takes you to My jobs, Schedule, Timesheet, My tips, Team, My caddy, Time off & swaps, Language and Training.
3. If something in the app looks wrong, do not guess — contact the office.

2 Getting into the app

You do not need a password. The office sends you a one-tap sign-in link by email.

1. Open the invitation email from WRRCS and tap the sign-in link.
2. iPhone: in Safari tap Share, then Add to Home Screen. Android: tap the three-dot menu, then Add to Home screen or Install app.
3. From now on, open WRRCS from the icon on your home screen.
4. The first time you sign in, choose English or Українська. You can change it any time under Language in the menu.

> **Tip:** If your link has expired, ask the office to send you a new one.

3 Turn on notifications

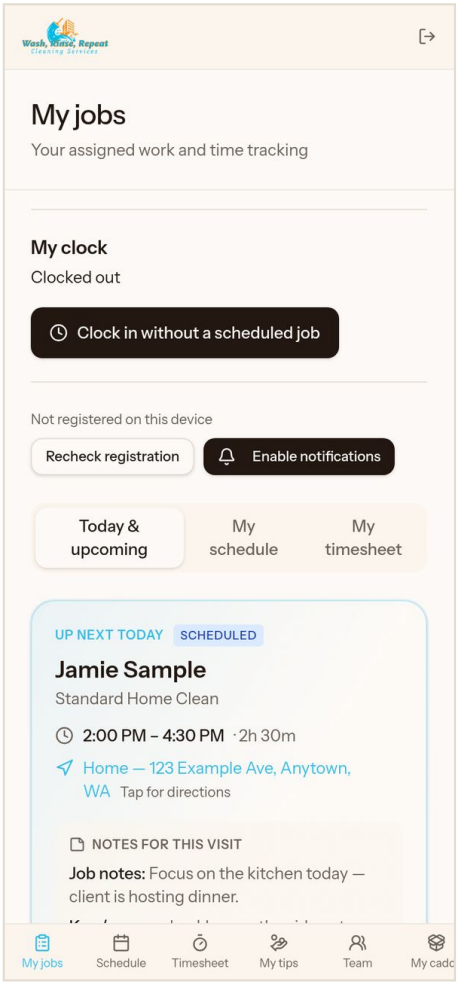

Notifications let the office reach you about schedule changes and reminders.

1. On My jobs, tap Enable notifications and choose Allow.
2. On iPhone this only works when the app is opened from the Home Screen icon.
3. "Not registered on this device" means notifications are not on yet. Tap Recheck registration if you are not sure.

4 Your My jobs screen

This is your home screen. Check it before you leave for work.

1. My clock (top) shows where you are right now: Clocked out, On site, Drive / other, or On unpaid lunch.
2. The large card shows your next job: client, service, time, and address. Tap the address for directions.
3. Notes for this visit shows the key or door access, pets, parking and special instructions. Read them before you arrive.
4. WITH shows the teammates working that job with you.
5. Use the tabs Today & upcoming, My schedule and My timesheet to switch views.

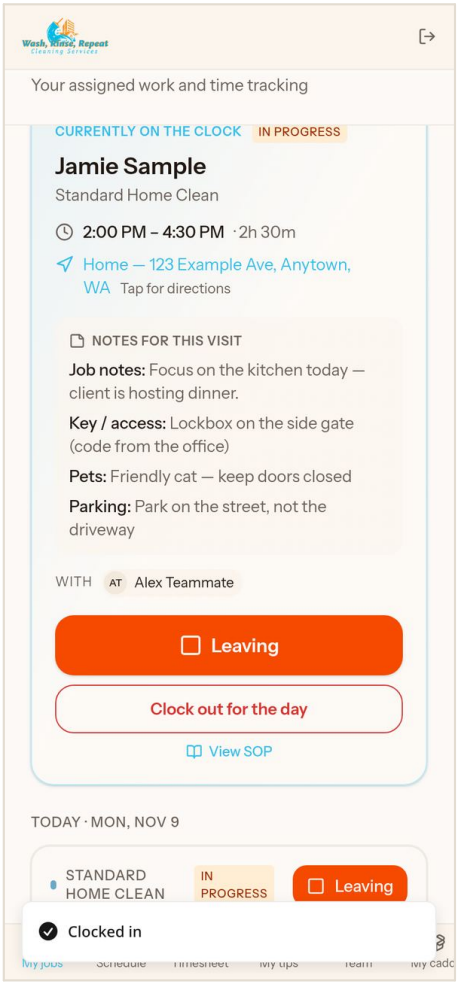

5 Start your day: Clock in

Clock in when you arrive at your first job — not from home.

1. When you arrive at your first property, tap the blue Clock in button on that job.
2. If your phone asks to use your location, tap Allow.
3. The card changes to Currently on the clock and My clock shows On site.
4. The orange Leaving button is what you will tap when you finish this job.

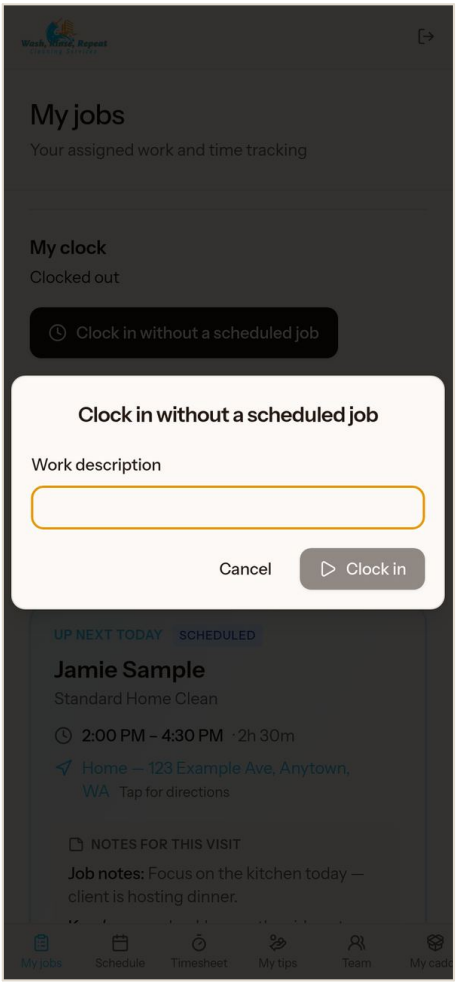

> **Tip:** Only clock in early or from somewhere else if the office has asked you to.

6 Work that isn't on your schedule

Sometimes the office asks you to do work that is not a scheduled job, like picking up supplies or training.

1. Under My clock, tap Clock in without a scheduled job.
2. Type a short description of the work (for example, "Supply pickup at the office").
3. Tap Clock in. When you finish, tap Clock out for the day or go to your next job.

7 Read the SOP before you start

The SOP is the list of instructions for that property. Every property can be different.

1. Tap View SOP on the job card.
2. Read every step before you start cleaning.
3. If you see Mark SOP reviewed, tap it after you have read the instructions.
4. Tap Close SOP to go back. If there is no SOP, contact the office before you start.

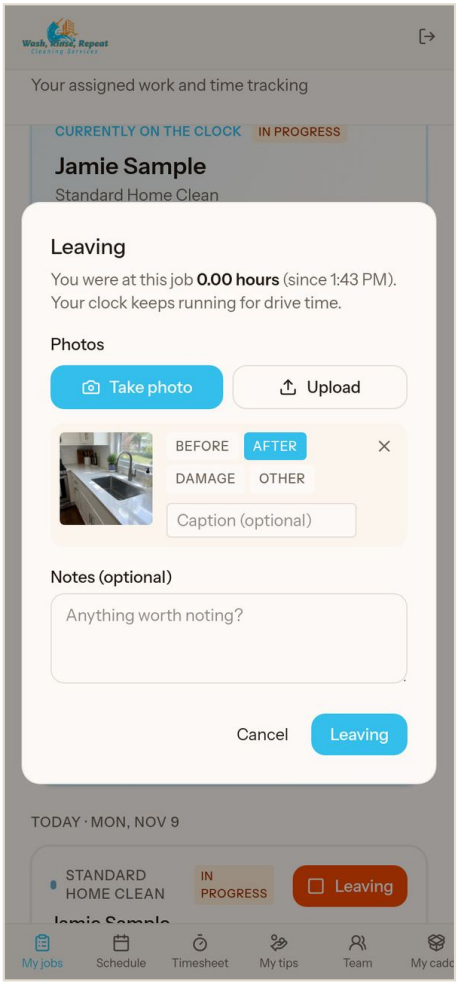

8 Finishing a job: photos and Leaving

Your photos are proof of your work. They are saved under your name for that visit.

1. When the job is done, tap the orange Leaving button.
2. Tap Take photo to use the camera, or Upload to choose photos you already took.
3. Under each photo choose Before, After, Damage or Other.
4. Damage photos must have a short description of what is damaged.
5. Add any notes for the office (optional), then tap Leaving to finish the job.

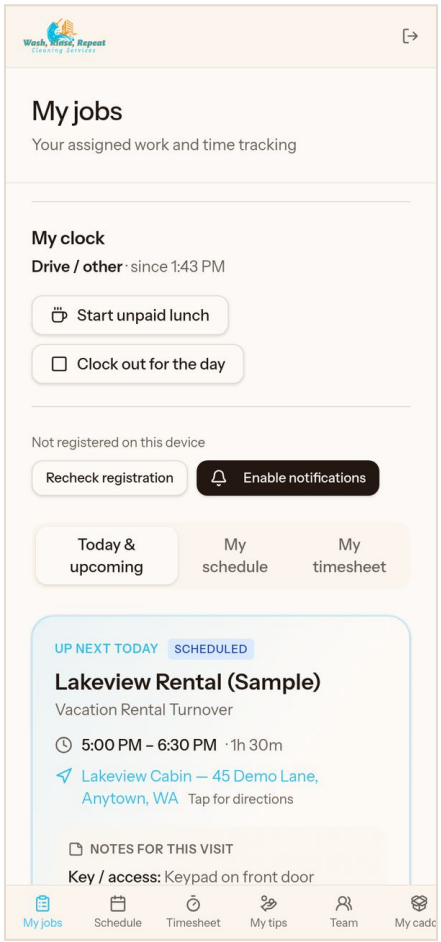

> **Tip:** Report any damage right away with a Damage photo and tell the office.

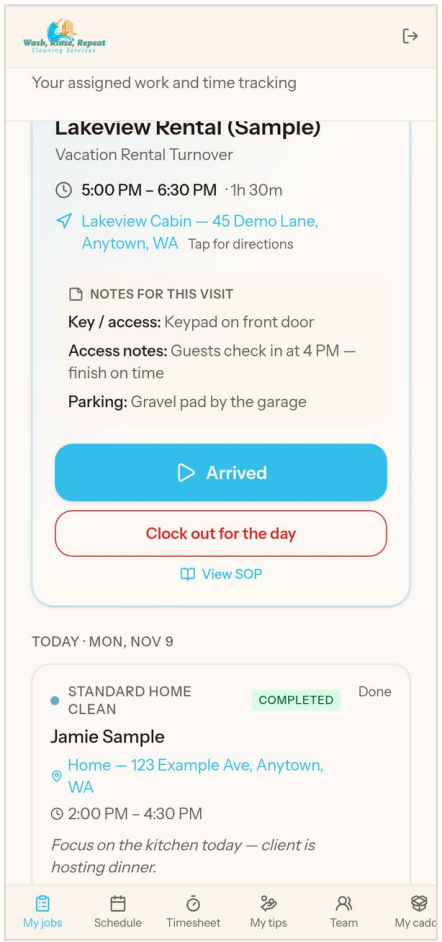

9 Driving to your next job

After you tap Leaving, your paid clock keeps running for drive time.

1. My clock shows Drive / other while you drive.
2. When you reach the next property, tap the blue Arrived button on that job.
3. Repeat for each job: read the notes and SOP, clean, add photos, tap Leaving.

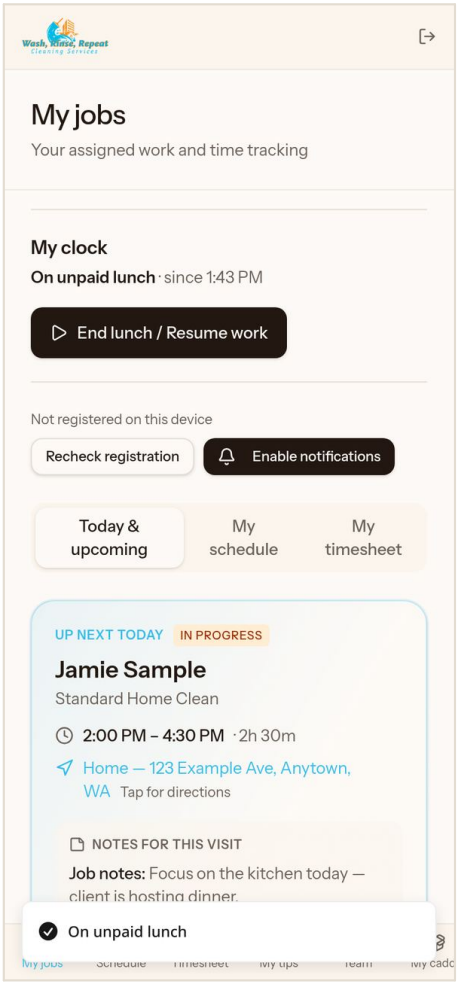

10 Unpaid lunch

Lunch is unpaid, so always mark it in the app.

1. Tap Start unpaid lunch. My clock shows On unpaid lunch.
2. When your break is over, tap End lunch / Resume work.
3. You cannot tap Arrived while you are on lunch — end lunch first.

11 End your day: Clock out

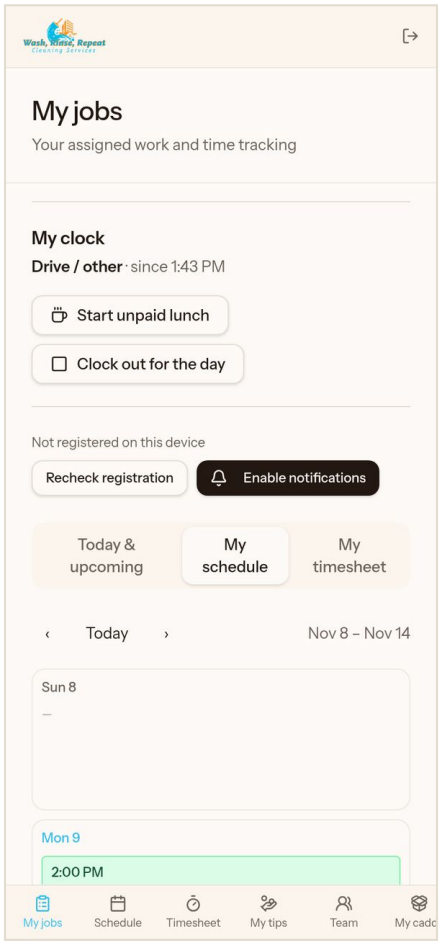

Clock out after you tap Leaving at your last job of the day.

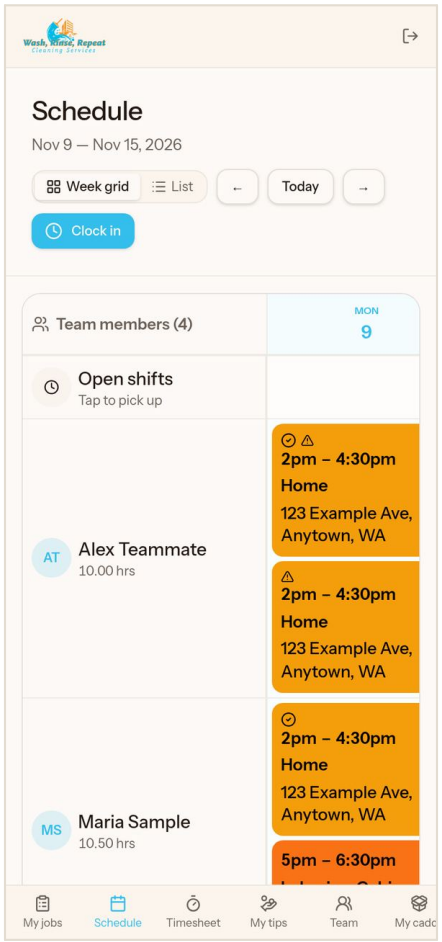

1. Tap Clock out for the day and confirm.
2. My clock changes back to Clocked out.
3. Forgot to clock in or out? Tell the office the same day so they can correct your time. You cannot change your own times.

12 Checking your schedule

See what is coming up so you can plan your week.

1. On My jobs, tap My schedule to see your week. Use the arrows to change weeks.
2. Schedule in the bottom menu shows the team's week. Tap Today to come back to this week.
3. Your schedule can change. Check the app every morning.

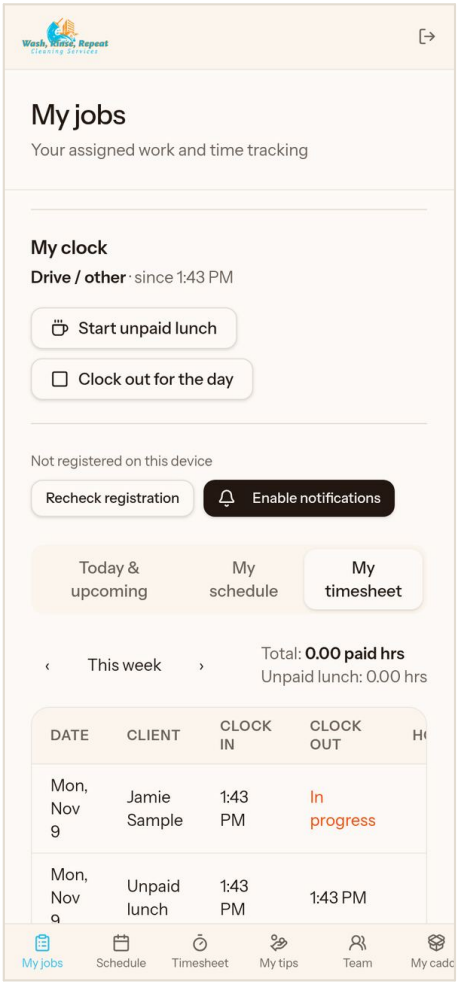

13 Checking your hours

Your timesheet shows the hours that will be paid.

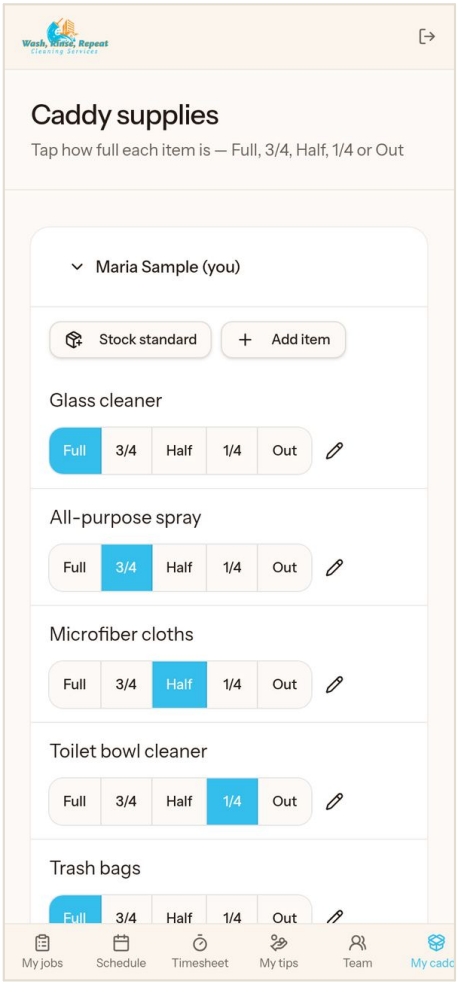

1. On My jobs, tap My timesheet to see this week's clock-in and clock-out times, paid hours and unpaid lunch.
2. Timesheet in the bottom menu shows each day in more detail.
3. If a time is wrong, tell the office. Managers make the correction.

14 My caddy: supplies

Tell the office how full your supply caddy is so you never run out at a job.

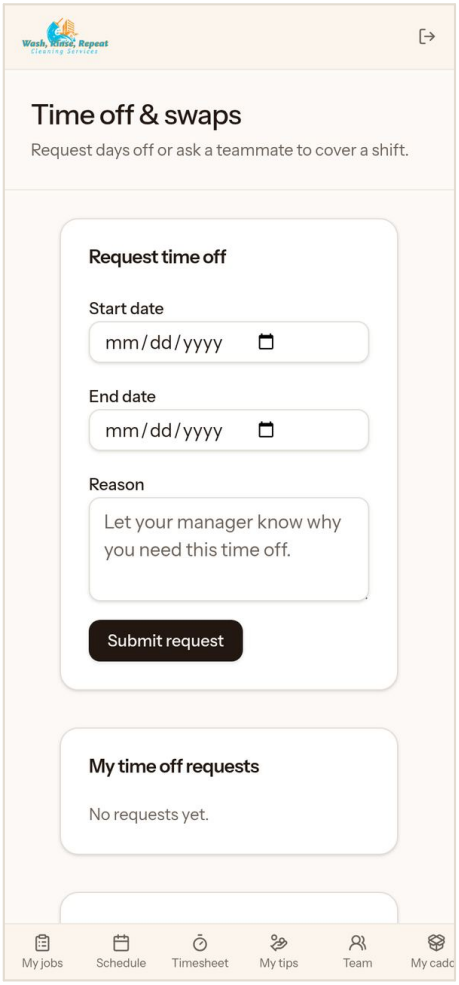

1. Tap My caddy in the menu, then tap your name to open your list.
2. For each item tap how full it is: Full, 3/4, Half, 1/4 or Out.
3. Update it at the end of the day or whenever something runs low.

15 Time off and shift swaps

Ask for days off or ask a teammate to cover a job — all in the app.

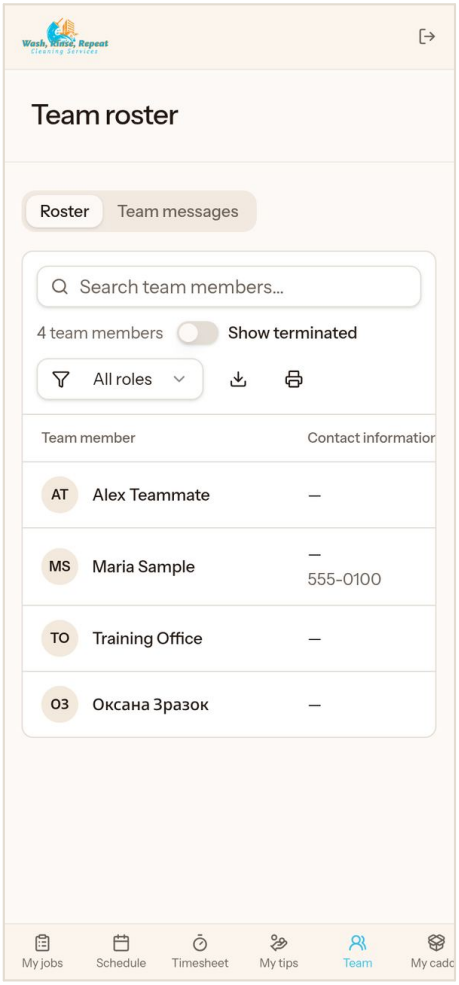

1. Tap Time off & swaps in the menu.
2. Request time off: choose the start and end date, write the reason, tap Submit request.
3. Request shift swap: pick the job you need covered and, if you want, a teammate who could take it.
4. Your requests and their status (pending, approved or denied) appear on the same page.

16 Team and messages

Stay in touch with the office and your teammates.

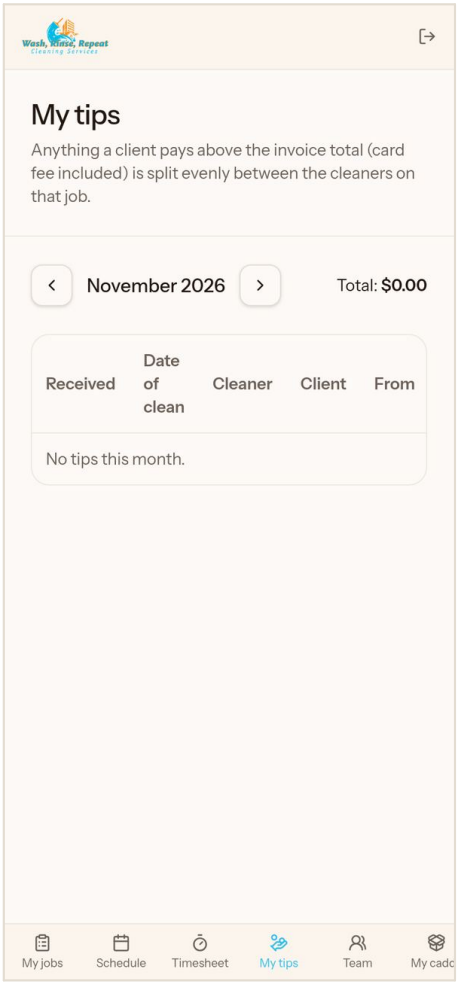

1. Tap Team in the menu. Roster lists your teammates.
2. Tap Team messages to message the office or a teammate.
3. Use Team messages for work questions instead of personal text messages.

17 My tips

See tips from clients for the jobs you worked.

1. Tap My tips in the menu and choose the month.
2. When a client pays more than the invoice, the extra is split evenly between the cleaners on that job.
3. You only see your own tips.

18 Privacy and good habits

Clients trust us with their homes. Protect their information.

1. Never share door codes, key locations, addresses or client details with anyone outside WRRCS.
2. Never post job photos on social media or send them from your personal phone. Photos are for the office only.
3. Do not contact clients about schedules, prices or payments. The office handles all client messages.
4. Photograph the work, not people.
5. Only use your own sign-in. On a shared phone, sign out with the arrow icon at the top right.

---

19 Problems and quick fixes

What to do when something doesn't look right.

1. No address or "Location needs review" on a job: call the office before you drive.
2. No SOP for a property: contact the office before you start.
3. A button does nothing: check your signal, wait a moment and try once more. Do not tap many times.
4. Not getting notifications: open the app from the Home Screen icon, tap Enable notifications, then Recheck registration.
5. Forgot to clock in, out or mark lunch: tell the office the same day.

---

20 Daily checklist

Your workday in nine steps.

1. Open the app and check My jobs and the notes for each visit.
2. Arrive at your first job and tap Clock in.
3. Tap View SOP and read the instructions.
4. Clean the property.
5. Take your photos, then tap Leaving.
6. Drive to the next job and tap Arrived.
7. Mark lunch with Start unpaid lunch and End lunch / Resume work.
8. After your last job, tap Leaving, then Clock out for the day.
9. Update My caddy so the office knows what you need.
